VOL. XXVII.—FOURTEENTH YEAR

RICHMOND, CONTRA COSTA COUNTY, CAL.—MONDAY, APRIL 12, 1915

NUMBER 67.

## PORTUGUESE IS CHARGED WITH MURDER

Antone Rodrigues, a Portuguese, sought by Sheriff R. R. Veale of this county for the past four weeks for the murder of an unidentified Hindu, near Antioch, over the paying of a five cent ferry fare across Dutch Slough, was captured late last night in an abandoned saw-mill four miles outside the town of Redding by a posse of deputy sheriffs, and is at the present time on his way to the county jail in Martinez.

Considerable of a mystery surrounded the whole affair, following the finding of the body in that a haggard looking Hindu appeared at the Southern Pacific station near Giant and informed the agent that one of his companions had fallen dead in the exact spot where Rodrigues is supposed to have murdered the unidentified Mohammedan.

Rodrigues at first denied any knowledge of the murder but later broke down and confessed to the whole affair, stating that the quarrel had arisen over the Hindu not wanting to pay him five cents to be ferried across Dutch Slough.

"I acted in self defense when the two other Hindu companions of the man attempted to beat me up," continued the terrified Portuguese.

It is thought that Deputy Sheriff William Veale will arrive in Martinez with his prisoner early tomorrow morning.

## PATRICK HEALY HOPELESSLY INSANE

Patrick Healey, committed to the Napa insane asylum several weeks ago on the grounds that he had lost all his reasoning power is, according to a report received in this city, growing worse and may never sufficiently recover as was at first expected, to be able to leave the institution.

Healey was prominent in many fraternal organizations in this city prior to his having lost his reasoning powers and was a hod-carrier at the Standard Oil refinery.

## BARNES' BIG SHOW PLEASURES MANY PEOPLE

It afforded the kiddies as well as the grown-ups considerable amusement and excitement did Al G. Barnes' circus which left this city last evening for Oakland where it is to stop for two days.

The monster street parade held yesterday morning attracted considerable attention, while the three calliope operated by steam, electricity and air proved an unparalleled feature of the day's events.

## BUSINESS MEN TO FORM ATHLETIC CLUB

The meeting of the business men of this city interested in the forming of an athletic club which was to have been held in the offices of Assistant District Attorney Wilbur S. Pierce tomorrow evening has been postponed until Thursday evening.

Several prominent officials of the Standard Oil company and Santa Fe have already become interested in the organizing of the new athletic club which will mean that officers will in all probabilities be elected at the meeting on Thursday evening.

## BLACKBURN WILL BE TRIED IN METROPOLIS

Chief of Police Walker paid a visit to the San Francisco police station today where he had a long interview with Robert H. Blackburn, pseudo army officer, over the matter of several bad checks passed in this city during the month of February.

Although Chief Walker would like to bring "Captain Blackburn, U. S. A." as he styles himself, back to this city to answer for several bad check deals, it is not very likely that this can be accomplished, owing to the fact that Captain of Detectives Shea of the San Francisco department wants the man on fourteen charges in that city.

## KNIGHTS OF PYTHIAS WITNESS SUNRISE PLAY

Over eight hundred Knights of Pythias and their friends journeyed to Mount Tamalpais yesterday morning to witness the production of the play "Demon and Pythias" at sunrise.

Amongst the groups of helmeted knights and beautifully gowned women in Queen Elizabeth costumes were: Mr. and Mrs. Jack Gregory, representing Richmond Lodge of the Knights of Pythias and Contra Costa Temple Pythian Sisters.

Preceding the play a brilliant scene was presented when sixty knights garbed in many hued velvet robes and carrying spears and shields grouped themselves on Sunrise Point to receive the historical American flag, the gift of Muir Lodge of San Anselmo.

Those who participated in the production of the play were: Damon, Joseph Speck; Pythias, Harry Wells; Dionysis, A. B. Nutting; Phillitus, Harry Nichols; Hermit, Estelle Gray; Thomas Ovington, manager.

School Again Today.

School opened again today after a week's vacation and all the little lads and lasses buckled down to hard work after the lapse from their studies. The teachers in the several departments report that the attendance is as large as usual.

## STANDARD OIL EMPLOYEES ENJOY SUNDAY OUTING

The annual outing and clam bake as held by the Standard Oil employees yesterday at the site formerly occupied by the Belt Line Pole company near Point Orient proved one of the biggest affairs of the year.

Festivities for the day started at 9:00 o'clock when three chefs, garbed in white cap, starched jackets and aprons, began opening the luscious mollusks for the "big feed."

During the time that all were enjoying themselves with the clams as prepared in the "fifty-seven ways," "Nick" Hauser, orator and well known Standard Oil employee favored the many present with his laughable recitation "Casey at the Bat," following which short talks were made by the officers of the Standard Oil Outing and Clam-Bake Club, which included President C. Desmond, Vice President Nick Hauser, Secretary Earl Scofield and Treasurer Charles Blanchard.

The afternoon feature was a baseball game between the married and single clams which resulted, after two hours and forty minutes of play, in a tie score of 8 to 8. The batteries for the game were: Married Clams—Earl Scofield and Peter Brown, while "Herb" Domonick and Williams worked out for the Single Clams.

During the time that the game was in progress the Standard Oil band composed of thirty-two pieces under the direction of Herman Tuller, rendered all of the late selections of the day for which they received round after round of applause.

Those in attendance at the affair were: Edward Axelsson, C. Axelsson, A. A. Alstrom, J. F. Brooks, C. R. Blanchard, W. S. Rheem, E. J. Garrard, J. Hartnett, Nick Hauser, K. Ingraham, W. Rial, H. W. Krumdick, J. S. McKeehan, E. W. Morgan, C. E. Muller, P. Brown, W. L. Chappe, M. Cary, A. Childs, L. Dickey, M. Deely, G. B. Fredenberg, F. W. Flint, E. Scofield, H. Neu, R. Osborne, J. L. Siegle, S. M. Smith, C. Miller, W. Stuckey, L. H. Transue, P. Transue, Don Williams, H. W. Wooden and J. Whalen.

## SOLONS PONDER WAY TO MEET EXPENSE

SACRAMENTO, April 12.—Passage of the administration non-partisan bills through the Senate; settlement of the Owens trade apprentice bill in the Assembly; determination of the impeachment proceedings against Judge John L. Childs of Del Norte, and solution of the poll tax deficiency are the issues expected to fill the legislative eye throughout the coming week.

The non-partisan state election bills are the big legislation of the session from the viewpoint of the Governor's office.

Senator Owens' bill to forbid a limit on apprentice has become the most critical issue to organized labor, which regards it as an open-shop measure.

The poll tax deficiency, estimated at about \$900,000, is the state's most difficult financial problem.

Half a dozen schemes to meet the poll tax loss have been proposed. A state ad valorem tax, an income tax, increase of the inheritance tax, a new corporation license tax, increase of the corporation franchise tax and a liquor tax have been discussed.

There will be no ad valorem tax. That much is settled," said Senator Cogswell, chairman of the Senate Taxation Committee, today.

It appears equally certain that there will be no State liquor tax, and a State income tax is not seriously considered, according to administration leaders.

Inheritance taxes cannot be collected until eighteen months after death, and because it would take two years to get the benefit of an increased inheritance tax that scheme has been practically abandoned.

The best the State can do, it is said by legislative leaders, is to meet the poll tax loss in part and let the rest of the burden fall upon the counties for replacement of the poll tax revenue which was used for support of the schools.

Opinion is divided as to whether it should be done by a new corporation license tax or by increasing the assessed valuation of corporation franchisees. A corporation license tax bill is being drawn in the Attorney-General's office, but some of the administration leaders are known to be against it and in favor of raising the revenue on the franchisees.

## YOUNG HIKERS BACK FROM CAMPING TRIP

Tanned to a nut brown, a number of hikers, students at the Richmond Union High school returned home Saturday evening following a trip spent in tramping across the Marin county hills to Bolinas bay.

The members of the hiking party making the trip were: Joe Sharp, Wm. Stewart, Paul Follett, Gerald Follett, Herbert Schrader, Donald Gray, Walter Hoffman, Simeon Pearson, George Greathouse, Leonard Gerlach, Martin Walters, Roy Adams and Paul Smith.

## BOND GIVEN FIVE YEARS PROBATION

Jack Bond, charged with having embezzled several hundred dollars' worth of jewelry from the Richmond Jewelry company of this city, for whom the police of this state conducted an active search in an effort to locate him, was placed on five years probation today by Superior Judge R. H. Lathimer.

Bond was charged by Archie Nichols, manager of the company, with having attempted to embezzle priceless goods and jewelry from the concern. He was captured in Ohio just one year following the issuance of the warrant.

Police Judge Lindsey of this city bound Bond over to the Superior Court on \$2,000 bonds.

## "CANADIAN ROCKIES" THEME TONIGHT OF LECTURER

"The Canadian Rockies," whose grandeur is far superior to the Alps of Switzerland, the Andes of South America, and the Himalayas of China, is to be the topic on which Adrian Villain, San Francisco passenger and freight agent of the Canadian Pacific railway company will speak on at the Lincoln grammar school auditorium this evening.

Villain will also exhibit some 500 stereoscopic views along with his lecture, showing just where the "Wonderland of the World" is really located.

The lecture is to be free and is in conjunction with a series of such affairs as planned by the Canadian government in conjunction with their wonderful exhibit at the Panama-Pacific Exposition which is daily attracting thousands of sightseers. Villain was induced to give one of his lectures in this city through the efforts of Mrs. W. L. Ballenger.

## BIG CONCERT COMPANY ON WEDNESDAY

One of the greatest attractions which the Santa Fe company is going to be able to offer to its employees this season is coming to the local Reading Room on Wednesday evening if this week. It is the famous Orpheum Concert company of Burlington, Iowa, and its personnel is composed of the following: Gertrude Williams Lundgren, reader and manager; Bessie Watson Niemeyer, whistler; Jane Mercer, pianist; Katherine Hassel, soprano.

In making his announcement to the employees of the company at Richmond, S. E. Busser, superintendent of reading rooms for the company has the following to say:

"I have had so many requests to send this company that it seems to be superfluous to send out bills. If I sent a wire over the line that the Orpheum Concert Company of Burlington was coming, there would be no opera house large enough to hold their audiences. I have tried very hard to get a whistler, but never succeeded until Bessie Niemeyer came over the line. Gertrude Lundgren as Reader has been the innocent cause of many sore hands among her admirers. Miss Hassel in the 'Butterfly Girl' has won the approval of every audience, and the one word, sunshine, describes her presence and address. Miss Mercer, as pianist and accompanist, is the fascinating pivot on which the entire concert turns. They close the evening with a winning farce, and every man goes to engine, shop and yard with a brighter conception of the world, and the hard tasks of railroad becomes light and easy for many weeks. Don't miss the Orpheumites."

The librarian at the local reading room announces that seats for the performance Wednesday evening will be reserved for the Santa Fe employees until 7:30 o'clock, after which time they will be open to the public. This is due to the small seating capacity of the auditorium and after the employees have been accommodated it will be a case of "first come, first served."

## FUNERAL MRS. FARIA HELD YESTERDAY

The funeral of Mrs. Leonora Faria, widow of the late Antone A. Faria, who died at her home at 154 Fifth street on Friday evening, was held this morning at 10:00 o'clock from St. Mark's Catholic church.

Following the requiem high mass the mourners were conveyed to Sunset View cemetery by automobile where the interment took place.

Here from Ohio. Mr. and Mrs. William Koeblenov of Cleveland, Ohio, are visiting in this city as the guests of Mrs. Calvin McCullough, 429 Fifteenth street.

Richmond club, for the purpose of raising funds for the coming summer months.

The committee which had charge of the evening was R. J. Richards, James Snee and T. Carman.

### MADAME DE THEBES' PROPHECY

Madame de Thebes, the Paris seeress, has published her annual prophecy for the year beginning March 21, 1915. This year, as usual, she concerns herself with principalities and powers, the conspicuous ones of the earth. She is dark in some of her utterances, as has been the wont of oracles from time immemorial, but a few of her predictions are specific.

She recalls that at this time last year she foretold the outbreak of the war. She forgot that she prophesied also the death in November last of an exalted monarch and war lord and the disastrous defeat of the Germans in December.

Madame de Thebes was not the only shrewd observer in Europe who predicted war in 1914. All the cards were stacked for such an event. While some statesmen in all countries were doing their best to avert or postpone war, the shrewdest were not hopeful and the more unscrupulous were planning it. Therefore, the French seeress scarcely needed the power of supernatural sight into the future to enable her to take advantage of a probability.

Anyone with a fairly shrewd judgment and possessed of information might successfully set up in the prophecy business, especially in that section of it having to do with the large and general things of earth, such as nations and the heads of nations. The movements of nations being colossal, the tendencies of them can be in a measure gauged, and the probabilities ascertained. Others might hit or miss in about the same proportion as Madame de Thebes, if they made up their minds to it.

The reputation of a prophet usually is attributable to the fact that we remember the coincidences and fail to remember where prophecies and incidents fail to coincide. The best that any prophet can do is to make a shrewd guess.

Not surprising that a man jailed in Detroit for failure to pay alimony to one of his five living wives should not want to get out. He realizes that he lacks Solomon's knack of managing a bunch of wives.

More evidence of what Billy Sunday did in Philadelphia—two of his hymns have been adapted to one-step and fox-trot time and are the most popular dance music in the city's tango parlors.

Anyway, to charge Gov. Whitman with giving Colonel Hayward a \$15,000 state job to get him for his presidential manager is to admit that he will have need for such a manager.

Possibly the reason Bryan did not butt in on those war credit arrangements made with belligerents by New York bankers was that he was tipped off that it would be useless.

If you are doing wrong a lot of people are going to find it out and tell their friends. Don't get it in your "noodle" that you can pull the rough stuff and get away with it.

### VILLA A COLLECTION EXPERT

When it comes to taking up collections, General Francisco Villa has Billy Sunday backed off the boards. It took "Pancho" about ten minutes of fairly good oratory to convince the merchants of Monterey that they should make a "thank" offering of a million pesos, the thanks coming in because their lives were spared.

Villa called them thieves, robbers, scoundrels, oppressors of the poor—all appellatives well known and well used by Mr. Sunday when he was calling upon the audiences of Philadelphia to "hit the sawdust trail." But while the evangelist could threaten those who heard him with the horrors of hell fire, he was unable to open the door back of him and disclose a file of soldiers and tell his hearers that they were to be taken to Chihuahua and treated as their sins deserved.

To the Sunday audiences, hell was a vague sort of place, much talked of but not visible to the naked eye. To the Villa audience, the file of soldiers was the real thing and no vivid imagination was required to conjure up a blank way and the consequences usually following those early morning functions in territory controlled by the northern chieftain.

The collection was instantaneous and liberal.

There are but a few days left for those who have the councilmanic itch to get their names on the official ballot and it will be well for all such to get a move on them. A great many good and true men have signified their willingness to serve the public in a legislative capacity, but we cannot use all of them and must thin out the bunch to a mere half dozen for the general election on May 10th. But there will be some grand hurdle race for the primaries and no man or woman can guess the winners in that event.

But don't the doctor who says, "The pest of American manhood is the mollycoddling moth," know that he is infringing the colonel's copyright?

Huerta must have been cleaned out by Spanish sharpshooters, if there is anything to the story that he is on his way to Mexico to head a new revolution.

Caruso is strong for Pan-America—he has signed up to sing at ten performances in Buenos Aires for \$7,000 each, which sets a new record.

Can't help wondering where Villa got \$20,000 in real money to pay widow McManus; also whether she will ever get out of Mexico with it.

When neutral shipping has less than an even chance to escape mines and torpedoes, it is only natural that it is quitting the game in the war zone.

Another triumph of motor over horse. The famous Sheephead Bay race track has been sold to a syndicate that will fit it up to be used for automobile racing.

## Congratulations To:

LOCATION—One and three-fourths miles east of Salinas City the county seat of Monterey County, with a population of about 6,000, 118 miles south of San Francisco, one-fourth mile from station on the Pajaro Valley Railroad.

The soil is a rich deep level sedimentary loam, no alkali, no adobe and no hardpan. This is soil on which you can positively "make, good," easily worked and turns up nice and mellow, pulverizes readily under the harrow and retains the moisture during the summer months. The land is all cleared and ready for the plow, no rocks, trees, brush or roots.

SCHOOLS—Good grammar school is located on the property; high school at Salinas within a short walk or drive.

POTATOES—This is the home of the famous Salinas Burbank potato which always sell for

the very highest market price, often bringing twice as much as potatoes from other sections of the country. Here "THE POTATO IS KING," enormous profits are made in this section from raising potatoes. Mr. M. F. Martin of Salinas harvested 5,600 sacks of potatoes from his 38 acres—this is an average of 155 sacks to the acre—he sold the crop for \$11,000 or an average of \$289 per acre.

If you want a home.

If you want a chance to make good come and see these "SALINAS CITY FARMS," any size you want—5, 10, 15 or 20 acres.

One price all the way through, \$125 an acre.

### Woman's Emancipation

is here. A delight and an indispensable aid to those who have already used them. Just six minutes to clean, polish and dry the china, glassware and silver of a dinner for eight people.

No contact with hot water, steam or hot soapy suds. Self-cleaning, sanitary, no pump used. Small in size, easily lifted and carried. Strongly built of stamped metal.

Sent prepaid, returnable at our expense within ten days, if not exactly as represented.

It has a capacity sufficient to wash at one time all the dishes of the average family, yet so light and portable that it can be easily moved from place to place.

The movement of the handle forward and backward revolves the propeller in the bottom of the washer, which dashes the hot soapy water with a swirling effect around, through and over all the dishes, forcibly attacking them at all points, and cleansing them with absolute perfection on all sides. The dishes are completely washed in less than one minute's time and the washer works so easily that a child can operate it.

Turning down the small lever at the top of the washer, opens drain valve and discharges the water in a few seconds. The dishes are then rinsed and sterilized by pouring a dishpan of clear boiling water through the lid and turning the handle about thirty seconds. The rinsing operation automatically cleans the washer itself, which always remains in an absolutely sanitary condition.

Beautifully illustrated booklet showing every phase of the Whirlpool Sanitary Dishwasher sent on request.

Thousands are being sold by leading stores in Philadelphia, New York, Chicago, St. Louis and other large cities. The Whirlpool enjoys a monopoly of the market, and furnishes agents the best opportunities for quick money making available anywhere.

## EASTER ON FIFTH AVENUE

NEW YORK, April 12th. -- The "Easter Parade" after church on Sunday is a sight worth seeing, though the throng is so great that one gets only a passing glimpse of the smart costumes which might leave a very slight and hazy impression if a careful study of advance models had not already made the season's fashion points familiar.

### Dark Blue and Black.

Dark blue is the dominant color in smart tailored get-ups with blacks and serges also much in evidence. Many of the plainer coat and skirt suits have extra collars of fancy striped silks topping the cloth collar at the back, and often these silk accessories are prolonged into vests that make a brave showing where the coats open nearly to the waist in front. Black and white stripes are leaders, but nearly all colors are represented in these trimming touches, and frocks, fancy plaids, and plain taffeta, all figure in the fashionable turn out.

Black taffeta combined with blue French serge makes some of the most distinguished looking costumes, replacing the satin and serge suits and dresses of the past two seasons.

Broids, Buttons and Embroideries. Many simple dresses of plain serge or gabardine are rendered smart and distinctive with braid and button trimmings, while embroideries wrought on the material lend elegance to costumes that would otherwise be ordinary in effect. While the majority of the coats are short, either Eaton, or ending at the line of the hip, there are a number smartly worn that come quite to the knee.

These are especially noticeable in a Russian blouse model of blue or black serge, with band embroideries wrought in steel threads and braids, ornamenting the belt, button of tunic, sleeves and collar. Buttons of ball form in pierced steel are used with these.

### Belts Ubiquitous.

Belts are employed on all sorts of coats and in endless varieties of form, from little straps that hold the ripple fullness on the hip, to half, or all way round lengths marking either a high Empire waist line, or sloping to suggest the tapering waist that many authorities endorse and are endeavoring to bring into favor.

### Skirts.

While the full ripple skirt is firmly established, and enticingly worn by the youthful contingent, above the daintiest of fancy foot-wear, it is not nearly as smart on the matronly wearer for longer length. Good designers moderate the ripple, and quite a number of women are following the Callot lead and retaining the long full tunic above a narrow under skirt, which is still wide enough to permit comfortable walking. Pleated skirts, especially in narrow box styles, are smartly endorsed for separate skirts especially in the dull green and blue plaids and shepherd checks that come in great variety of blocks and combinations.

Corkscrew skirts built of bias bands corded, one on to the other exactly like those worn when Queen Victoria was young, are fetchingly developed in taffeta silk. In the same material very full skirts corded at the foot, are topped by short jackets, that hang well away from the figure at the waist. These have turned back straight revers at either side, held flat with a row of white pearl buttons, while a girdle that finishes with a short turn over flap at the left hip is ornamented with white embroidery.

### Flat Styles.

Tricorne hats are among the smartest worn with tailored get-ups. These depend almost altogether upon their shape and straw, and admit of only a wing or quill trimming.

Turbans compete for similar wear,

## BIG AMERICAN LINER WRECKED ON COAST OF JAPAN AND TOTAL LOSS

KOBE, Japan, April 12.—The steamship Minnesota of the Great Northern Steamship Company, carrying 201 passengers and a crew of 277, is on the rocks off Iwajima, near the southwest entrance of the Inland Sea, Japan, and all hands are working desperately at the pumps while rescue ships are standing by, giving every possible assistance to save the stranded liner.

Meager advices received here are to the effect that the passengers have been taken off safely by the steamer Cania of the Blue Funnel line, one of the first vessels to respond to the Minnesota's S. O. S. calls.

It is believed that Mrs. Francis Harrison, wife of the governor of the Philippines, is among the passengers of the Minnesota. Acting on this belief, George W. Guthrie, American ambassador to Japan, has cabled all available details of the

wreck to Governor Harrison at Manila.

From the advices received here it is presumed that the Minnesota mistook her course during a fierce storm and was prevented from sighting the lighthouse on account of the thick weather.

The steamship, bound for Seattle by way of Kobe, struck at 9:30 o'clock last night, soon after the passengers had left the dining room.

The force of the impact shook the big liner stem to stern, and with a fierce grating sound she rested on the submerged rocks. The point where she grounded, just south of Yamaguchi prefecture, is known to mariners as the most dangerous in the Inland Sea.

A big hole 120 feet long was torn in the forward part of the steamer, and the closing of the watertight compartments was at once ordered by Captain Garlick.

## CONTRACTOR GIVEN MISDEMEANOR SENTENCE

With haggard face and sunken eyes, A. A. Branlund, a former well known contractor of this city, charged with having attempted to forge a check for \$10.00 on E. Farlinger, proprietor of a clothing store at 124 Macdonald avenue, appeared in the Superior Court at Martinez today and heard Superior Judge R. H. Latimer after carefully listening to his case, reduce the charge from

forgery to petit larceny for which he was sentenced to 60 days in the county jail.

Branlund told a pitiful story of having been out of work and of his failure to secure employment, following which he cashed the check thinking that money from relatives would arrive at the bank before the merchant would have time to cash the check.

## NEWS UP TO THE LAST MINUTE

LONDON, April 12.—Reports of a naval battle in progress reached here today from Scarborough, where heavy firing at sea was heard.

Advices from Scandinavian sources that British and German warships have engaged in another battle off the Norwegian coast, resulting in

the defeat of the Teutons, were featured in all the newspapers. These have failed of confirmation from the admiralty, which today is preserving absolute silence.

PARIS, April 12.—That Germany is assembling a vast fleet of 150 Zeppelins and 400 aeroplanes for use against England next June in the greatest air raid of history is the report current here today.

The ministry of foreign affairs has given out the statement of a Spanish traveler, just arriving from Germany, who declares that the Germans are expecting great results from their air fleet and predict the complete terrorization of England.

## FOUL PLAY THEORY IS NOT TRUE

The death of Helene Hondeville, 7-year-old orphan and ward of the French government, at Antioch, was due to natural causes. It was announced by the District Attorney's assistant at Martinez yesterday.

The Coroner's Jury will, however, hear the testimony of Dr. Channing Hall, who conducted an autopsy when the body was exhumed on Saturday night.

So peculiar were the facts connected with the girl's sudden death, and so meagre the details gathered by Dr. E. A. Diggins, who was supposed to have conducted an autopsy at the time, that fear of murder was entertained. The child's symptoms led to the belief that she had been given strychnine or some powerful drug.

Because Dr. Diggins made so incomplete an examination of the girl at her death, it was determined to exhumate the body and solve the mystery.

# OLYMPICS TRIMMED BY BILL LUCE'S FRISKY ELKS

Casualties were a feature at the game yesterday between the Elks and the Olympic Club of San Francisco when the locals managed to nose their opponents out by a score of 3 to 2.

The injured were Cliff Cleek, catcher for the Elks, knocked unconscious by a foul tip. Harvey Christianson, nail torn from middle finger by runner sliding into second base.

"Midget" Conger, ankle dislocated from using "hock" slide in seventh inning into home plate.

"Wolt" Smith, first baseman for Olympic Club, hand lacerated from runner sliding to bag.

So fast were the players getting tangled up with each others spikes or "beamed" from wild pitches, that they became wary and would not take any chances following the fifth inning.

Had there been an emergency hospital on the grounds it could have done a rushing business all afternoon.

But even though the boys got cut up a little they treated the fans and fanatics to one of the fastest games staged on the First street grounds this season and showed that they had mastered one thing which has been lacking for many seasons, "teamwork." The way those Elks played into one another's hands brought wreaths of smiles to the grided features of old "Brick" Devereaux as he stood on the sidelines and made his feet itch to be out there and mixed up in some of the lightning like infield plays. And it was not long before his chance came. A foul tip caroming from the bat of Larkin, center fielder for the Olympic club, "brained" Catcher Cleek, with the result that Christianson was hauled in from second base and given the mask and "protector" while the "Old Red Dog," "Brick" Devereaux was sent out to second to watch the bags.

The first ball that was knocked

to the "Red Haired Veteran," he looked at it intently before throwing it to first base and was so wrapped up in his old time form that he came near losing his man.

In the second inning the Olympic Club put two runs across the home plate while in the next inning following the Elks managed to tie the score with two tallies. From that time until the seventh frame both teams battled for the upper hand which came first to the Elks who aided by the "hit and run" signal managed to squeeze "Midget" Conger across the plate for the closing score of the day.

Both Gordon and Howledge, the Olympic club hurlers, were in fine fettle for the day, Gordon striking out eleven men with Howledge passing the "Indian Sign" on ten of the Elks.

A queer play "bobbed" up in the fifth inning when Gordon struck out four men. Of course you'll want to know how it happened and failing to understand our theory we will have to refer to Cornelius O'Hara, scorekeeper. The first three men went the "one, two, three" route when Mensing came up. Gordon passed him two pretty ones which cut the home plate like a "sirloin steak" and then he struck at the third which Christianson failing to hold onto resulted in the left fielder for the first bag which he failed to reach. Owing to the fact that Gordon had caused same Mr. Mensing to swing said bat, willow or horsehide smasher three times he was accredited with having made said put out. "Get it?" We didn't, but are passing it along.

Willyum Cunningham featured in the game and we came mighty near forgetting it. Yep: Willyum was rather inclined to put forth his best foot during the game because on the third row of the grand stand, far off to one corner, sat a pretty brunette, whose eyes saw but one player and that was her Willyum. "Cunny" made his "grandstand" in the third inning when he raced from his position in deep left field toward second base at a ten flat clip for a low fly which he scooped up at his shoe tops bringing the fans and fanatics to their feet and receiving "oodles" of applause.

Roy Hyatt at third, and Kenneth Ingram each came in for their share of the "glad hand" stuff throughout the game and showed that they are rounding into mid-season form. The score as pencilled in a perturbed presence of mind by O'Hara follows:

## "ARE YOU A MASON" AT RICHMOND THEATRE

"Are You a Mason?" the greatest American comedy ever presented is the big attraction at the Richmond theatre today and tomorrow with the popular John Barrymore in the principal role. This play was for many years one of the most popular comedies ever offered to the American public and it was in this production that Barrymore made his first great success. Every member of a fraternal order will highly enjoy the burlesque upon the initiatory and other ceremonies that will be presented. It's a scream and will

no doubt play to big houses.

A Keystone comedy and a one-reel drama will round out the program.

On Wednesday and Thursday "Hypocrites" the most widely discussed photo drama ever offered will be shown where prices will be 20 cents for the lower floor and 10 cents to the gallery for all adults. Children's prices will be 10 cents.

Marguerite Edwards, who won the prize a few years ago for the most perfectly formed girl in America is the star in the offering.

## IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out  
your kidneys and neutralize  
irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacy and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

## DON'T WAIT

Take Advantage of a Richmond Citizen's Experience.

When the back begins to ache, Don't wait until backache becomes chronic.

Till kidney troubles develop, Till urinary troubles destroy the night's rest.

Profit by a Richmond citizen's experience.

"My little boy had weak kidneys for years and I was often obliged to keep him home from school," says Mrs. Walter Stubblefield, of 537 Fifth street, Richmond. "Whenever he caught cold, the kidney weakness was worse. He didn't seem able to control the kidney secretions at night. I doctored and gave him medicine, but without any permanent benefit. Finally, I gave him Doan's Kidney Pills. Two boxes worked wonders. His kidneys soon began to act regularly and his appetite 'improved.'"

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Stubblefield recommends. Foster-Milburn Co., Props., Buffalo, N. Y.

### THE EUROPEAN WAR IN BIBLE PROPHECY.

Undreamed of passions have burst forth, devouring the lands that patient hands have beautified and made fertile, and centuries have stocked with art treasures. To the entire world the war has come as a complete surprise because they have not read our book (600 pages—clay) telling that just such conditions would exist, only to be followed by the still greater devastation of anarchy. The first edition came from the press in 1897.  
Of vast interest and importance is the promise of better things in store for the earth, when the wrath of nations has run its course. Send thirty-four cents in stamps (with this coupon) to cover postage to The Temple, No. 36 W. 63rd St., New York City, and receive a copy promptly.

**VINE HOPPER DOES GREAT DAMAGE TO GRAPES**

No other insect pest does so much damage to the vineyards in California as the grape-vine-hopper. To aid the vineyardists to fight this tiny pest the University of California has just published a bulletin by H. J. Quayle Associate Professor of Entomology, of the staff of the Citrus Experiment Station at Riverside, in which he tells how to make and apply a spray, consisting of a pint of forty per cent black-leaf and a third of a gallon of liquid soap, (or else two pounds of hard soap) to two hundred gallons of water. This has been found very effective in killing the nymphs or young. Material sufficient to spray one acre of vineyards cost about three dollars.

The first signs of injury from this pest are a mottling of the leaves with gray and green. Then the leaf turns silvery, then yellow and brown, then it drops from the vine. This loss of leaves prevents the grapes from maturing properly and prevents the canes from ripening normally for the next year's wood, which means that the vine may be more or less stunted in growth. It is only when the hoppers grow extremely numerous, however, that enough injury is done to warrant treatment. It is the warmer interior valleys in which the grape-vine-hopper thrives most, and it seldom becomes injurious in the Coast valleys nor in Southern California, except in the reclaimed desert region.

It is somewhat helpful to turn sheep into the vineyard in the fall, to eat the leaves, thus reducing the number of insects the next year. Early plowing is also of some slight aid if practiced generally in a district.

The adult grape-vine-hoppers are almost impossible to kill by spraying, but the young quickly succumb.

This circular can be obtained free by writing to the College of Agriculture at the University.

**TWO OUT OF HELL; NO TORMENT THERE**

The Bible Hell Not the Hell of Theology.

Jonah's Escape From Hell—Jesus Was Delivered From Hell—Everybody Goes to the Bible Hell—Jesus Redeemed All From It—Hence All Are to Come Out of It—The Rich Man and Lazarus—A Parable or a Narrative?—Unreasonable as a Statement of Facts—Reasonable as a Parable.

Boston, April 11.—Pastor Russell spoke here today. We report his discourse on Luke 16:23, "In Hell he lifted up his eyes." By way of introduction the Pastor explained that the Old Testament tells us that at death all mankind go to Sheol—the tomb; and that the New Testament tells the same story, using the Greek word Hades as the equivalent of the Hebrew Sheol; but that in modern translations of the Bible difficulty is encountered. Nearly all modern translations have been made within the last five centuries. For thirteen centuries before, the Bible had been little known.

When Bible study revived, the errors which had crept in were so entrenched in men's minds that the translators of the Bible unconsciously gave little twists in their endeavor to have it say what they thought it meant. Only when it was impossible to translate the word Sheol as Hell did they give its true meaning—the tomb. But do their best, they could so translate only less than half the whole number of its occurrences. The Revised Version retains the words Sheol and Hades, leaving the reader to discover their meaning.

**Two Escape From Hell.**

The Pastor then told of several who escaped from Hell. The Prophet Jonah was in the fish's belly for parts of three days. He calls it his tomb-belly, a sheol-belly. Jesus tells us that Jonah's experiences typified His own—that as Jonah was in the sheol-belly of the fish, so Jesus would be in the sheol of earth. St. Peter shows that this was prophesied of Jesus, saying, "Thou wilt not leave My soul in Hades"—the tomb. He declares that God fulfilled this by raising Jesus from the dead—Acts 2:27.

Whoever gets the proper focus will see that all, good and bad, go down to the tomb—to Sheol, Hades, called in our Bibles Hell. The Scriptures distinctly tell that "the dead know not anything"; that "there is neither wisdom, nor knowledge, nor device, in Sheol, whither thou goest"—whither all go; that "the wages of sin is death"; and that "the soul that sinneth shall die." There is nothing in the Bible for the commonly accepted thought that those who die go to Heaven or Purgatory or eternal torment. In this connection the speaker carefully explained that the term Gehenna, also translated Hell, is a Scripture symbol of the Second Death.

**The Rich Man in Hell.**

The remainder of the discourse was a very reasonable interpretation of the parable of The Rich Man and Lazarus. The Pastor holds that the story is a parable, not a literal statement. He considers it unreasonable to suppose that, without a word being said as to his character, a man should be roasted eternally simply because he was well-fed and well-dressed; or, on the other hand, that sordid and destitution are qualifications for Heaven.

He then suggested that the Rich Man represents the Jewish nation, rich in Divine promises. Their spiritual table was bountifully supplied. To them belonged the promises of the Kingdom, represented by the purple of royalty. There was the "fine linen" of typical justification, accomplished on their annual Atonement Day. In A. D. 70, the Jewish nation died, and ever since has been in Hades, although the Jews have been very much alive and have suffered many things, especially amongst professed Christians of the Tare class. Lazarus represents Gentiles who desired God's favor, but were "aliens from the commonwealth of Israel." They had no table of Divine blessings, no promise of royalty, no white linen of typical justification. These things belonged to the Jew exclusively until his national rejection and the subsequent receiving of the Gentiles. As the Jew died to his favor, so the Gentile died to his disfavor. As angels carried Lazarus to Abraham's bosom, so the early Jewish Church, God's messengers, received believing Gentiles into full fellowship as brethren. Thus figuratively Lazarus was taken into Abraham's bosom—treated as his child.—Galatians 3:8, 16, 29.

The Rich Man represented two tribes—Judah and Benjamin. In the same proportion the five brethren would represent the other ten tribes. That only Israelites could be meant is shown in the statement, "They have Moses and the Prophets." The Gentiles had them not. The name "dogs" Jews commonly gave to Gentiles. See Mark 7:25-29. Who cannot see in this beautiful parable a teaching in full harmony with God's Wisdom, Justice, Love and Power? May our understanding open wide to a true knowledge of God's Word! ## LAYS DOWN ON A TRACK; WAKES UP IN LOCAL HOSPITAL

Heavily laden with a cargo of malt, alcoholic beverages and free lunch, "Governor" Allen, as he was known about this city, laid himself down for a quiet little snooze on the tracks of the Belt Line railway early Sunday morning. The "Governor" was just about in the middle of a deep slumber and was in all probability dreaming of the Elisian fields, where demijohns of whiskey grew from eucalyptus trees and kegs loaded to the bursting point with foaming beer dangled from honeysuckle vines, when he was given a shock. Men with harsh voices cursed him for delaying the "Midnight Rock Train" from Point Orient, and then everything turned a pinkish blue inside his cranium with the result that when he awoke several hours later he found, much to his astonishment, that he was not occupying a bed on a railroad track but was in a hospital where everybody spoke in subdued tones and where pretty nurses stroked his battered head with tender hands. Whether it was the attention given him by the nurses or the fact that he had been lightly tapped by the engine could not be learned. Whatever it was he soon rallied to consciousness.

Late this afternoon Allen was taken to the county hospital in Martinez.

## ITALIAN FISHERMEN ARE OFF FOR ALASKA

Southern Pacific trains last evening carried hordes of Italian fishermen from Pittsburg and Martinez to San Francisco where they are to embark on fishing vessels bound for Alaska. According to a report from Pittsburg more than 800 Italians engaged in the fishing industry have embarked on boats for the Alaska

canneries. In Pittsburg the fishermen, in order to obtain ready cash, compromised the suit which over fifty of them had instituted against A. B. Davo, demanding that he pay them the contract price of four cents per pound for their fish. The compromise was on a three-cent basis.

## BAROMETER MUCH TO DO WITH HEALTH

Every person capable of putting two and two together and obtaining the correct answer has been conscious of feeling out of sorts, as the printer would say, when the clouds hung low and the sun was obscured. A week of dull weather sets a whole community on edge and the mental, moral and physical components of man are, at its close, about fit for the scrap heap. Under such atmospheric conditions, when prolonged for a number of days, an Englishman admits that he feels "seedy" and the American confesses that he is feeling "mean," both adjectives relating to a state of mental and bodily dumps.

This situation is generally attributed to the lack of sunshine for every human being retains the ancient beliefs in the potentiality of the Sun in its relation to his life and its well-being. He knows that it gives warmth and light and brings forth his crops from the fruitful earth, and rightly yields it a respect for its great and generally benign influence over mundane existence. It is true that we feel "bully" in sunny weather, but sunshine is the accompaniment of certain atmospheric conditions not wholly shown by the thermometer or the solarimeter. A few sunless days or hours are not sufficient, however, to put a hoo-doo on the temperament and activities of a whole population; there is another important controlling agency but little understood, even if appreciated, and it exercises a much greater influence than the sun in a given space of time. If the sunlight were absolutely necessary to our upkeep nightwatchmen and laborers on the morning editions could be chronic invalids, and mine workers the most unhealthy people in existence. If sunlight were necessary to animal life all of the night prowlers would cease to exist.

The gaseous envelope of atmosphere air surrounding the earth is the medium in which we have to live, and it bears the same relation to the human family as the waters of the globe to the order of fishes. The air and water are essential to the life as much a factor to man as the quality of water to the fish. This normal atmosphere air exerts on our bodies a definite dynamic force or physical pressure of 14.7 pounds on every square inch of our bodies, if we live at or near the sea level, and the higher up we go this atmospheric pressure diminishes until on the heights of the Rockies it is probably two pounds less. The normal pressure at sea level is indicated by the barometer as 30 (inches), and it decreases by an established scale as it ascends these mountain heights. Most persons know that ascents of mountainous peaks, thousands of feet above the sea level results in marked physical distress, difficult breathing, general depression at the summits, and in extreme cases bleeding at the nose and even from the lungs, due to this lessened atmospheric pressure. Just so it happens that when the barometer is "low" for a considerable period, say a drop from 30, the normal gauge, to 29 or below, when stormy or dull weather ensues, we get the analogous effect imperceptibly, but in an appreciable degree, for it has happened that a definite measure of atmospheric pressure is released from our bodies and naturally there follows a dislocation of our normal balance. The average adult man sustains on every pleasant day an atmospheric pressure of about 44 tons at sea level, when the barometer reads at 30 and a drop of an inch or more, to 29 and below practically takes off half a ton or more of his load to which he is accustomed. Paradoxically, instead of feeling lighter and freer man feels its disturbing depressing effect on his tissues. He has to become adjusted to this alteration from normal tension to one of unusual relaxation, and while it is slow in its manifestations, as barometric changes are generally gradual, yet the effect in miniature is like going up to a great height on a mountain range. Of course this feeling is neither serious nor fatal, but the relaxed condition in unpleasant weather extending over a number of days makes us feel "out of sorts." While the spell is on we are in the doldrums and the situation is not conducive of enough im-

## COMING EVENTS FOR RICHMOND PLAYHOUSE

Manager Victor DeLorme of the Richmond theatre announces the following popular priced "filmed stories" as coming to the local showhouse during the coming month. The coming masterpieces with their respective stars who will delight Richmond audiences are:

April 12-13—John Barrymore in "Are You a Mason?"  
April 14-15—"Hypocrites," film sensation.  
April 16-17—Alice Dovy in "The Commanding Officer."  
April 18-19—Fritz Schaff in "Pretty Mrs. Smith."  
April 19-20—Charles Chaplin in "Caught in a Cabaret."  
April 21-22—"The Pardon."  
April 23-24—"The Unfaithful."  
April 26-27—"When We Were Twenty-one."  
April 28-29—Robert Warwick in "The Man Who Found Himself."

portance by careful surgeons, who weigh every factor, to defer important operations which can be postponed, when these unfavorable barometric conditions prevail, and the patient needs every ounce of vitality to pull through.

It is just as well to know these fundamental facts about the influences which affect our physical being so that we can estimate that "tired" or "good-for-nothing" feeling which accompanies a spell of dull weather; to know that it has a definite and transitory cause outside our bodies. It is really an explanation of the ups and downs of our healthy existence. Naturally there is no remedy to be prescribed. As Mark Twain said about the weather—we talk a lot about it but we never do anything to improve it.

## DEMAND AMERICAN COAL ON THE INCREASE

Certain countries of Europe have been dependent on Germany and the United Kingdom for their coal supply. Denmark and Sweden purchase almost all their coal from the United Kingdom, and distance and high freight rates will handicap the American shipper in competing for this trade when conditions return to normal. But Sweden has bought some American coal during the last few months and has recently turned to Germany for coal and coke. France stands ready to purchase in the United States if prices can be arranged. Italy is threatened with a coal famine, and it is reported by cable from Madrid that Spain offers a market for American coal of all grades.

South American coal supplies have come chiefly from the United Kingdom, Australia, and Germany; but the United States had more of a foothold in the Southern continent than it had in European markets, and American exporters have already begun to take advantage of present conditions to increase their sales. Markets for American coal in Europe, South America, Mexico, India, and Egypt are discussed in Special Consular report No. 69, Foreign Markets for Coal, just issued by the Bureau of Foreign and Domestic Commerce, Department of Commerce, copies of which may be obtained for 5 cents each, from the Superintendent of Documents, Government Printing Office, Washington.

## A TALK WITH A RICHMOND MAN

Mr. Hollen of 219 Standard Avenue Tells of an Interesting Experience. There is nothing like a talk with one of our own citizens for giving hope and encouragement to the anxious sufferer from the dread kidney disease. We, therefore, give here an interview with a Richmond man:

"For several years I suffered from kidney disorders," says Mr. Hollen, of 219 Standard Ave., Richmond. "I felt all run down and was unfit for work of any kind. If it hadn't been for Doan's Kidney Pills, I am certain that I couldn't have kept up. Whenever I use this remedy, the kidney secretions stop bothering me and my back gets strong and free from pain."

## 'EVERYBODY'S GETTING SOMETHING NEW TO WEAR'

"And Why Not, Kate? Cherry's Credit Plan Makes It Easy."

"I don't wonder you feel out of place in your old clothes these glorious days. It does seem as if every single person we know has acquired a Spring Suit, or Coat, or Dress in the last couple of weeks."

"You know my cute checked Coat, Kate—well, I bought it ON INSTALLMENTS. I mean I'm paying for it just a little every week. To disclose a confidence, Louise and her sister both bought their adorable new Suits at Cherry's, too, on Credit, and they tell me that stunning girl from the East who's visiting them fell in love with a dear little dress up at CHERRY'S and carried it away, delighted."

"So, you see, Kate, it's very much the thing to do. Think of the rush there'll be this week and next up at Cherry's stores. Here, take their addresses and get some nice clothes for yourself. 515 13th st., Oakland, is exclusively for ladies, while the men's store is across the street at 528. ## AN OLD RECIPE TO DARKEN HAIR

Common garden Sage and Sulphur makes streaked, faded or gray hair dark and glossy at once

Most everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. —Advt.
